SUMMARY

I'm a passionate web developer who loves coming up with creative digital solutions. I adore experimenting with new technologies and pushing the envelope to create intuitive web experiences.

SKILLS

Languages	Javascript,HTML,CSS,C,C++,MongoDB,SQL(MYSQL)
Soft Skills	Teamwork,Communication, Multitasking,video editing
Frameworks	Express,Postman

EDUCATION

2019 - present	Bachelor's Degree at **Kantipur Engineering College**	
2017-2019	National Examination Board at**Sunrise English School**	(GPA:3.29)
2004-2017	Secondary Examination Board	(GPA:3.55)

PROJECTS

Kaushalyam: Revolutionizing Healthcare Through Technology   Link to Demo

Developed during KEC-LITE Hackathon,Kaushalyam is a groundbreaking health care solution.Utilized MERN stack to seamlessly connect patients and hospitals
MongoDB ,React JS,Express JS,Tailwind CSS

Todolist   Link to Demo

Designed a Web App that allows to create a todolist and keeps track of the tasks
HTML,CSS,JS,NODEJS,EXPRESS

Amazon.np   Link to Demo

Cloned the amazon website using HTML and vanilla CSS

Pseudocode to C++

Major Project   Link to Demo

Designed and implemented a transformer model leveraging natural language processing techniques to convert pseudocode inputs into executable C++ code.
Transformers - Pytorch - Django to translate psuedocode to C++.

Food Waste Management   Link to Demo

Created a web app for managing the waste food
React,Nodejs,Firebase

Vaccine Mangement System

Developed as part of my C++ project to optimize vaccination processes for health sector workers.

WORK EXPERIENCE

Cognifyz Technologies
Full Stack Development Intern   **March 2024 -May 2024**

Collaborated with the development team to build web applications using the Express framework. Worked on database design and management, ensuring efficient data retrieval and manipulation.

CERTIFICATIONS

Certification In Android Development
Issued by RTCD, Kantipur Engineering College
Certification In MERN STACK DEVELOPMENT
Issued by Broadway Infosys
